OUR MISSION ...

To provide New England with a training center that goes beyond batting cages and the equipment that rests inside its walls. The game of baseball has been woven deeply into the fabric of American life and culture over the past century, yet its history and the people who made it what it is today, are all too often forgotten or ignored. We should all remember, and never forget, that it is just that...a game. It is our intention to bridge the gap between today's young ballplayers, both boys and girls, with the invaluable traits of the players and legends of the game that preceded them. Introduction and exposure to the ideals and virtues ever-present "when it was just a game," will provide a newfound appreciation and respect, simultaneously impacting the way "the game" was meant to be played, for the better. "America's Game" will promote long standing, "old time" traditional values such as leadership, respect, responsibility, attitude, and teamwork, which will be the cornerstone of our curriculum, delivered in a positive, confidence-building, and educational environment. Those who enter through our doors will strive to ensure that history DOES repeat itself, in this case...and the game will continue to be "America's Game"!
